# Transforming Dreams into Reality

BROCHURE 2026-27

# Our Story

Graphic Era (Deemed to be University) is the realization of the vision and perseverance of **Prof. (Dr.) Kamal Ghanshala**, who aspired to transform the lives of youth through quality and holistic education. In 1993, with just twenty-nine thousand rupees and unshakable determination, he set out to redefine higher education in the Doon Valley. His vision took shape in 1996 with the establishment of Graphic Era Institute of Technology (GEIT), which was conferred the status of Deemed to be University in 2008 under Section 3 of the UGC Act, 1956, by the Ministry of Education, Government of India.

# Next-Gen Tech Innovation

Graphic Era is shaping the future of technology with cutting-edge Centres of Excellence in Apple iOS, NVIDIA, and AWS empowering students with hands-on learning in AI, Cloud, and Quantum Computing.

## iOS Development Centre

Powered by Apple and Infosys

The next generation of iOS development, driven by the vast Apple OS marketplace, will take shape at this state-of-the-art center. Spanning 10,000 sq. ft. on campus, it will be the only facility of its kind in the state. Each year, 100 students will undergo intensive, year-long training by experts from Apple and Infosys, empowering them to launch startups or secure high-paying jobs, and further enhancing Graphic Era's already outstanding placement record. This center will not only provide hands-on exposure to cutting-edge tools, technologies, and real-world projects, but will also nurture creativity, problem-solving, and entrepreneurial skills. By bringing global industry leaders and academic talent together, it promises to open new frontiers of innovation in mobile app development and ensure that our students are prepared to excel in a rapidly evolving digital economy.

## Centre for AI & High Performance Computing

Artificial Intelligence is transforming industries by automating tasks, enhancing services, and driving innovation. Meeting today's demanding AI workloads requires immense computing power — delivered by the NVIDIA DGX™ B200. Powered by eight NVIDIA Blackwell GPUs with 1.4 TB of GPU memory, it offers unmatched performance for training, inference, and large-scale research.

More than just hardware, the DGX B200 is a complete AI platform integrating computing, storage, networking, and software for seamless workflows from model development to deployment. With NVIDIA AI Enterprise and Mission Control, it enables scalable, resilient AI operations. Universities adopting DGX B200 empower students and researchers with world-class infrastructure to accelerate discovery and innovation.

## India's First GenAI Campus

All students at Graphic Era gain access to advanced AI and large-scale cloud services from the start of their programs. They benefit from 700+ proprietary hands-on courses on AWS Skill Builder with custom labs integrated into the curriculum. Additional AI subjects are taught in classrooms with practical applications on AWS-powered platforms. From the 2025–2029 batch, Quantum Computing has been introduced in CSE and ECE programs with AWS-based exercises. The campus will also host an exclusive Amazon Web Services Center of Excellence dedicated to Generative AI and Quantum Computing, empowering students with cutting-edge skills for the future.
